

THE WEST AFRICAN EXAMINATIONS COUNCIL

BASIC EDUCATION CERTIFICATE EXAMINATION -- JUNE 2008

CAREER TECHNOLOGY -- PAPER 2

Duration: 1 Hour | Level: JHS 3 / BECE | Code: CTECH 01/02 - P2

INSTRUCTIONS TO CANDIDATES

Answer Question 1 (Compulsory Design Problem) and two other questions from your area of study.

PART II: ESSAY & STRUCTURED QUESTIONS WITH WAEC RUBRICS

QUESTION 1: Compulsory Design and Communication

A school library requires a portable book rack to hold 10 reference dictionaries neatly on the librarian's desk.

(a) State two design specifications for the book rack (e.g. material, stability, size). [4 marks]

Model Answer / WAEC Rubric: 1. Material: Seasoned timber or acrylic plastic to support weight without sagging. 2. Stability: Wide base with non-slip rubber pads to prevent tipping over when books are pulled out. [A2, B2]

(b) Make a neat pictorial isometric sketch of the proposed book rack. [8 marks]

Model Answer / WAEC Rubric: Rubric: Accurate isometric axes (30 deg to horizontal), proportion, neat linework, book dividers shown clearly. [M4, A4]

(c) List three hand tools needed to construct the wooden rack in a school workshop. [6 marks]

Model Answer / WAEC Rubric: 1. Tenon saw (cross-cutting joints). 2. Try square (testing 90 deg squareness). 3. Bevel edge chisel (paring joints). [B6]
