Special Private Mock Examinations for BECE Candidates

September 2026 — CAREER TECHNOLOGY 2&1 — 2 hrs 10 minutes

ESSAY AND OBJECTIVE
[100 marks]

Write your **name** *and* **index number** *in* **ink** *in the spaces provided above and complete the title block on the A3 drawing sheet(s) provided.*

This booklet consists of two papers: Paper **2** *and Paper* **1.**

Paper **2** *is in* **two** *parts:* **A** *and* **B**. *Answer* **four** *questions only*:
Question **1** *and* **any** *other one in Part* **A**;
Question **4** *and* **any** *other one in Part* **B.**

Answer **Part A** *of Paper* **2** *in this booklet and answer Part* **B** *on the* **A3** *drawing sheet(s) provided. Both sides of the* **A3** *drawing sheet(s) may be used. All diagrams or drawings should be in* ***pencil.*** *Any other answer should be written in ink.*

Any candidate who tears off any part of this question paper will be ***severely*** *penalized.*

Paper **2** *will last* **1** hour **20.** Part **B** will last 40 minutes after which the drawing sheets will be collected; Part **A** will last 40 minutes after which candidates will be asked to move on to Paper 1.

Answer Paper **1** *on your Objective Test answer sheet.*

Do not start Paper **1** *until you are told to do so. Paper* **1** *will last* **50** *minutes.*

PART B

[30 marks]

Answer Question **4 (Compulsory)** *and* **any** *other* **one** *question.*

4. (a) In your workshop, Amakye, a new apprentice has difficulty identifying the tools shown in Figure 1.

Figure 1

CamScanner

(i) Name each tool labelled **I, II, IV, VI, VII, VIII & X** to help Amakye identify them easily.
(ii) Give one use of **V** and **X** in workshop operations.
(iii) State one way of maintaining **III** for longer use span.

[7 marks]

(b) Rearrange the basic steps for making a simple kitchen grater.

- *Punch holes using a nail and hammer to form rough edges.*
- *Shape sheet by bending into a curved or box form.*
- *Attach handle with wood or strong wire for grip.*
- *Smooth edges to prevent cuts and ensure safe use.*
- *Select tin or metal sheet as the main material.*
- *Cut sheet to size into a rectangle for easy handling.*

[3 marks]

(c) Make a neat sketch each of a triangular prism and a square pyramid. **[3 marks]**

(d) Rearrange the basic steps for a wall bonding technique in blockwork.

- *Spread plaster evenly with a hawk and trowel, working between screeds.*
- *Flatten with a straight edge and lightly scratch the surface*
- *Prepare the surface with a wire brush or chisel.*
- *Apply bonding agent to improve adhesion.*
- *Mark plaster thickness using dots and strips as guides.*

[2 marks]

5. (a) `Zitsu made **three wood joints** shown in Figure 2 in preparation for a job.

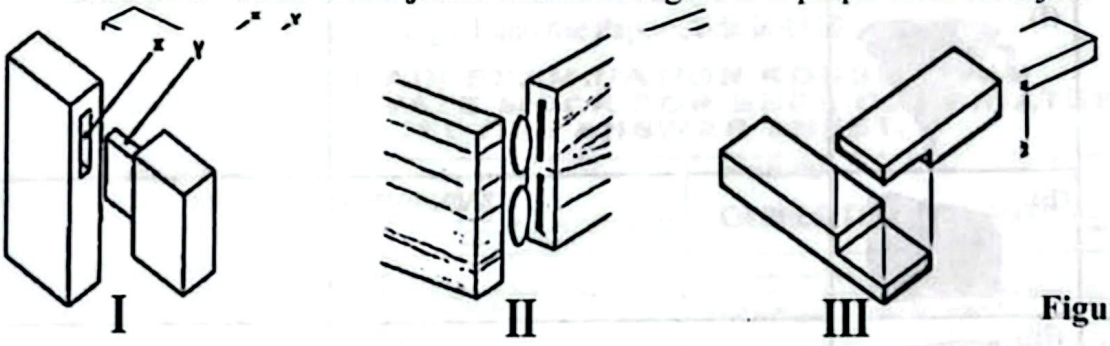

Figure 2

(i) Identify the joints labelled **I, II** and **III** and give one use each.
(ii) List **two** tools used in cutting the joints.

[4 marks]

(b) Identify one property and one use of the following materials:

MATERIAL	ONE PROPERTY	ONE USE
(i) Cartridge paper		
(ii) Plastazote foam		
(iii) Polymer-based sheets		

[3 marks]

CamScanner

(c) Make a freehand sketch of the following fasteners:
(i) bolt and nut;
(ii) wood screw;

[4 marks]

(d) Figure 3 is a cube in isometric projection. Redraw it using the appropriate techniques.

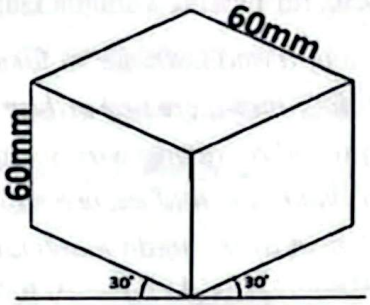

Figure 3

[4 marks]

6. (a) What is the difference between *design brief* and *design specification*?

[2 marks]

(b) Boadu is to draw a cone and pyramid for a drawing assignment. Name;
(i) **two** drawing tools he needs for the assignment and one use of each.
(ii) **two** line types he could use for a good drawing.

[2 marks]

(c) Copy and complete the table on marking out tools and finishes used for each artefact;

ARTEFACT	TWO MARKING OUT TOOLS	TWO FINISHES TO APPLY
(i) 		
(ii) 		
(iii) 		

[6 marks]

(d) Make a freehand sketch of the following workshop tools and state the use of each:
(i) firmer chisel;
(ii) sliding bevel.

[5 marks]

END OF ESSAY TEST

CamScanner

Answer **all** *the questions*

Each question is followed by **four** *options lettered* **A** *to* **D**. *Find the correct option for each question and shade* **in pencil** *on your answer sheet the answer space which bears the same letter as the option you have chosen. Give only* **one** *answer to each question. An example is given below.*

The first step to be taken when checking a socket outlet for a fault is to

A. switch off power at the mains switch.
B. open the socket outlet.
C. test the socket outlet.
D. Remove the mains fuse.

The correct answer is **A,** "switch off power at the mains switch" *which is lettered* **A** *and therefore answer space* **A** *would be shaded.*

[A] [B] [C] [D]

Think carefully before you shade the answer spaces; erase completely any answer you wish to change. Do all rough work on this question paper.

1. Maame Akua wants to cut a pattern from an expensive silk fabric. Which tool should she use to ensure the most precise cut to prevent fraying?
A. Shears
B. Embroidery scissors
C. Pinking shears
D. Razor blade

2. Which of the following is **not** a kitchen essential?
A. Skillet
B. Colander
C. Marking knife
D. Microwave

Use the illustration in **Fig 1** *to answer questions* **3** *and* **4.**

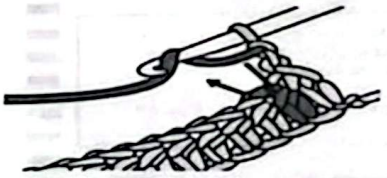

Fig 1

3. What technique is illustrated above?
A. weaving
B. embroidery
C. stitching
D. crocheting

4. What does the arrow indicate?
A. Hook direction as you pull the loop.
B. Path for removing the crochet hook.
C. Angle for inserting the crochet hook.
D. Cutting direction of loop ends.

5. Which of the following is a key constituent of environmental health?
A. Noise pollution
B. Lack of water
C. Air quality
D. Unhealthy food

6. Smart fabrics can respond to moisture by
A. catching fire.
B. changing color or absorbing moisture.
C. dissolving in water.
D. turning rigid.

7. Ama is frying fish. What small tool does she need to flip it safely?
A. Toaster
B. Tongs
C. Spatula
D. Stockpot

8. Which step comes first when preparing palava sauce?
A. Season and simmer meat
B. Wash and shred kontomire
C. Fry onions and salted fish
D. Blend "agushie"

9. Which of the following materials is used to join ingredients in food production?
A. Gelatin
B. Caffeine
C. Glue
D. Fufu machine

CamScanner

10. You wish to bake pizza for your father for a birthday gift. Which of the following is not part of the recipe?
A. Pepperoni
B. Flour
C. tomato sauce
D. vinegar solution

11. The edge of a garment that is folded and stitched to prevent fraying is the
A. collar.
B. cuff.
C. seam.
D. hem.

12. The use of seam ripper in sewing is to
A. cut fabric.
B. remove stitches.
C. measure fabric.
D. sew buttons.

13. The purpose of garnishing a dish is to
A. add to its flavor.
B. change the aroma.
C. spice it up.
D. boost its appearance.

14. Bottling of fruit juices is a way of ensuring food
A. spoilage.
B. preservation.
C. poisoning.
D. hygiene.

15. Which of the following is **not** a factor to consider when planning a family meal?
A. Family budget
B. Colour of fish
C. Time of serving
D. Nutritional needs.

16. A garnish **not** suitable for waakye is
A. sliced apples.
B. sliced onions.
C. lettuce.
D. sliced cucumber.

17. Which material would you look for to fix a broken toy so that it can bend easily?
A. Brittle material
B. Resistant material
C. Smart material
D. Compliant material

18. In making back stitches, you first
A. poke the needle up through fabric.
B. work from right to left.
C. make a double stitch.
D. thread the needle backwards.

19. When planning meals, what is **one** factor to consider for good health?
A. The nutritional balance of the meal
B. How much each ingredient costs
C. The colour combinations of the food
D. Using ingredients grown in the locality

20. A sprig of rosemary is an example of a
A. poisonous garnish.
B. edible garnish.
C. decorative garnish.
D. artificial garnish.

21. Which material is used to make temporary joints?
A. Nails
B. Screws
C. Clamps
D. Welding

22. The instrument for stepping off equal distances along a line is
A. a pair of dividers.
B. rule.
C. protractor.
D. set – square.

23. To sand wood smooth, what is the correct method to follow from start to finish?
A. coarse grit→fine grit→ hard grit
B. medium grit→fine grit→ hard grit
C. coarse grit→ medium grit→fine grit
D. fine grit→ coarse grit→ medium grit

24. Hands-on learning in Career Technology helps students
A. forget concepts quickly.
B. memorize theories only.
C. apply skills practically.
D. avoid teamwork.

25. The presence of sand in a mortar mix is essential in order to improve its
A. colour and feel.
B. texture and use.
C. smoothness.
D. strength and durability.

Turn over

CamScanner

26. A *boring* operation is done to
A. drill holes in wood.
B. solder metal bits.
C. mark sheet metal.
D. punch metals for welding.

27. At a building site, a mason uses cement and sand to join blocks. This process is
A. bonding.
B. grouting.
C. plastering.
D. reinforcing.

28. Kwasi uses a phone whose screen changes brightness automatically. This phone screen uses
A. thermochromic material.
B. photochromic material.
C. piezoelectric material.
D. shape memory alloy.

29. One **main** reason carpenters use tongue and groove joints is to ensure
A. smooth finishing.
B. easy dismantling.
C. decoration only.
D. weak bonding.

30. A plumber is using a tool with jaws that can be adjusted and clamped onto a pipe to steady it during tightening. This tool is
A. pliers.
B. G-clamp.
C. pipe wrench.
D. vice grip.

31. Water closet seat covers are made from
A. urea-formaldehyde.
B. vinyl acetate.
C. polycarbonate.
D. polyvinyl chloride.

32. A corrosion resistant light metal mostly used for aerospace components is
A. copper.
B. lead.
C. steel.
D. titanium.

33. Compliant materials do **not** include
A. cartridge paper.
B. plastazote foam.
C. synthetic glass.
D. polymer based sheets.

34. Which joint type is shown in **Fig 2**?

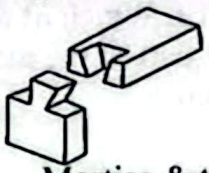

Figure 2

A. Mortise & tenon.
B. Butt joint.
C. Bolt and nut joint.
D. Biscuit joint

35. Which cleaning agent is used to remove tarnish from metals?
A. Lacquer polish
B. Turpentine
C. Ammonia solution
D. Azar gloss

36. A surveyor is sketching a building plan. Which pair of tools is needed to draw precise vertical lines?
A. Protractor & Compass
B. Set square & T-square
C. Compass & Ruler
D. Ruler & T-square

37. Which substance is a solvent for removing tough grime after oil-based painting?
A. Water
B. Vinegar
C. Turpentine
D. Alcohol

38. Newly improved materials with advanced properties for specific uses are termed
A. electronic materials.
B. modern materials.
C. artificial materials.
D. scientific materials.

39. Which wood joint is the strongest for cabinet making?
A. butt joint
B. miter joint
C. lap joint
D. dovetail joint

40. Workshop safety practices do **not** include
A. wearing helmets.
B. keeping workspaces organized.
C. inspecting tools before work
D. playing video games
