BEST BRAIN EXAMINATIONS KONSORTIUM
SPECIAL MOCK EXAMINATIONS FOR BECE CANDIDATES – OCTOBER 2026
MARKING SCHEME – CAREER TECHNOLOGY

QUESTION 1

(a) (i) **REASONS FOR PLANNING THE MENU FOR A RESTAURANT**

- Menu gives information about available dishes at a restaurant/event.
- It helps control portion sizes, reducing food cost and waste
- It informs about the price per dish.
- Caterers cook according to the menu provided in the schools, restaurants and hospitals.
- Menu assists with inventory management by indicating which ingredients are needed for each dish
- Menu helps to budget the amount of money it will take to prepare dishes at a particular time of the day.

[3 marks @ 1 mark each]

(ii) **TRADITIONAL/ETHNIC DISHES**

- Kpoikpoi
- Tuo zaafi
- Dzemkple
- Yakeyake
- Akple
- Apapransa
- Fufu
- Tubaani
- Akyeke
- etc.

[2 marks @ ½ mark each]

(iii) **FACTORS TO CONSIDER IN PLANNING THE MENU**

- Popular delicacies of the people
- Staple diets of the people
- Nutritional requirements of the people
- Seasonal food
- Variety of foods available
- Financial resources
- Customer size
- Special/particular occasions

2 marks @ ½ mark each]

Academicprep.com

(iv) **WAYS TO EXHIBIT PROPER FOOD HYGIENE**

- Wash hands often, especially before handling food and after the restroom.
- Clean uniforms, tied-back hair, no loose jewelry.
- Separate raw and cooked foods
- Use different boards/utensils to avoid cross-contamination.
- Keep fridges/freezers at safe temps; raw meat on bottom shelf.
- Use a thermometer to confirm food is fully cooked.
- Cool leftovers fast, reheat thoroughly before serving.
- Clean and sanitize surfaces
- Disinfect counters and equipment between tasks.
- Inspect and prevent pests through sealed storage and regular checks.
- Dispose of waste promptly in covered, regularly cleaned bins.
- Label allergens and use separate prep for allergy-safe dishes.
- Keep sick staff away from food handling.
- Train staff continuously on hygiene and safety rules.

[2 marks @ ½ mark each]

(b) **DISTINGUISH BETWEEN A *MEAL* AND A *DISH* IN FOOD PREPARATION**

A meal is a collection of one or more dishes served together to satisfy hunger and provide nutrition.
A dish is a single food item or preparation, such as a soup, salad or dessert, which is usually served on its own on a plate or dish bowl.

[2 marks @ 1 mark each]

CamScanner

(c) (i) **MATERIALS AND EQUIPMENT FOR JOINING AND ASSEMBLING IN SEWING**

- Needles
- Measuring tape
- Thread
- Fabric marking tools
- Pins
- Sewing machine
- Scissors
- Iron and ironing board
- Seam ripper
- Sewing patterns

[2 marks @ ½ mark each]

(ii) **REASONS FOR PERFORMING SEWING TECHNIQUES**

I. Washing or steaming fabric before cutting.
Reason: Prevents garments from shrinking after sewing and ensures accurate fit.

II. Using an iron to flatten seams and folds.
Reason: Gives garments a neat finish and helps seams lie flat.

III. Using chalk, tracing wheel, or markers to transfer pattern details.
Reason: Guides accurate cutting, stitching, and placement of darts, pleats, or pockets.

IV. Cutting small slits or wedges in seam allowances.
Reason: Helps curved seams lie flat and prevents bulk.

[2 marks @ ½ mark each]

QUESTION 2

(a) (i) **EXAMPLES OF MODERN FOOD MATERIALS USED IN FOOD PREPARATION**

- pea protein isolate
- quorn (mycoprotein)
- textured vegetable protein (tvp)
- cultured/lab-grown meat
- avocado oil
- interesterified fat
- truffle oil
- fortified wheat flour
- whey protein isolate
- stevia extract
- monk fruit extract
- erythritol
- xanthan gum
- guar gum
- soy lecithin
- agar-agar
- sodium alginate
- calcium chloride
- liquid nitrogen
- maltodextrin
- cricket flour
- spirulina powder
- spent grain flour
- modified corn starch
- Genetically modified foods,
- Antioxidants,
- modified enzymes,
- probiotic yoghurts,
- Quorn,
- tofu,
- Green tea,
- Granola superfood,
- Smoothies, Etc

QUESTION

(a) (i) **ACTIONS FOR MEASURING AND ASSEMBLING.**

Measuring

- Measuring length and checking dimensions
- Marking out the required lines on the sheet metal

Assembling

- Joining the cylindrical seam of the bin body
- Securing the pedal mechanism components

[2 marks @ 1 mark each]

(ii) **TOOLS FOR MEASURING AND ASSEMBLING**

Measuring

- Steel Rule
- Tape Measure
- Scriber
- Marking Gauge

Assembling

- Rivet Gun
- Spot Welder
- Screwdriver.

[2 marks @ 1 mark each]

(iii) **SUITABLE FINISHING FOR THE BIN**

- Polishing
- Buffing
- Degreasing
- Sanding edges
- Applying anti-rust paint

[2 marks @ 1 mark each]

Acadmicprep.com
Learn • Practice • Excel

(b) **HOW TO MIX THE FINISHES BEFORE APPLYING THEM**

(i) **Emulsion Paint:** Open the can and stir thoroughly with a flat stick to reinforce the settled pigment. If too thick, add a small amount of clean water gradually, stirring continuously until the desired consistency is achieved.

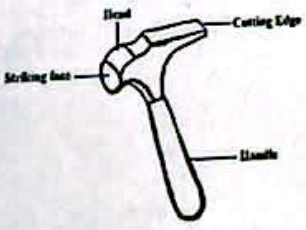

(ii) **Lacquer:** Lacquer must be thinned with a lacquer thinner for application. Add the thinner in small amounts and stir gently to ensure it is uniform without introducing bubbles, as it dries very quickly.

(iii) **Oil Paint:** Stir thoroughly to mix the components. If thinning is necessary for brushing or spraying, add a small amount of turpentine or white spirit and stir until the paint gets a uniform, workable consistency.

[3 marks @ 1 mark each]

(c) **LABELLED SKETCH OF TOOLS AND USES**

(i) **Brick Hammer**

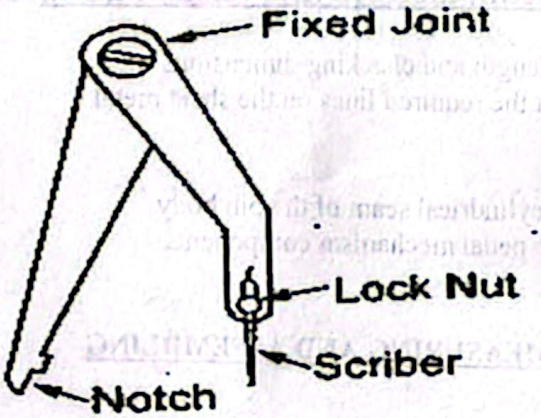

Uses

- cutting, chipping, and breaking bricks and blocks.
- striking and a sharp chisel edge for cutting.
- Tapping bricks into space during walling

[3 marks @ 2 marks for sketching; 1 mark for stating use]

CamScanner

(ii) **Odd Leg Caliper**

Uses

- scribing lines parallel to the edge of a metal workpiece.
- It has one bent leg (guide) and one straight leg with a sharp point (scriber).

[3 marks @ 2 marks for sketching; 1 mark for stating use]

[TOTAL MARKS FOR Q6 = 15 MARKS]

PAPER 1- OBJECTIVE TEST

1. C	11. B	21. D	31. C
2. C	12. C	22. A	32. A
3. D	13. D	23. B	33. D
4. C	14. C	24. A	34. B
5. D	15. B	25. B	35. B
6. B	16. D	26. A	36. D
7. D	17. A	27. A	37. A
8. A	18. B	28. A	38. A
9. C	19. C	29. C	39. D
10. B	20. C	30. B	40. B

[40 marks @ 1 mark each]

CamScanner

(ii) **USES OF SMART AND MODERN MATERIALS IN HEALTHCARE**

- Baby feeding spoons prevent injury by changing colour according to the temperature of food.
- Dental braces that are made using shape-changing wires return to their original shape after they have been stretched.
- Shape changing metal alloys that are used in plates help to mend broken bones.
- Forehead thermometers come in the form of strips containing heat-sensitive inks.
- Wound dressings with antibiotics release antibiotics directly onto wounds to help fight off infections.
- Surgical sutures with healing properties dissolve over time and promote tissue healing.

[2 marks @ 1 mark each]

(b) (i) **USES OF EGG IN COOKING**

- Garnishing – they are boiled and used to garnish foods
- Coating -- they are used to coat foods before frying e.g. fish balls
- Thickening – they are used to thicken liquids, e.g soups
- Emulsifying – they are used in bringing two liquids which will not mix, e.g. vinegar and oil
- Glazing – They are used to coat food to give it a shiny appearance after cooking, e.g. pastries.
- Enriching – They are used to improve the nutritive value of food, e.g. cakes
- Lightening – They are used as raising agents to lighten food e.g. pancakes.
- Binding – they are used to bind mixtures, e.g yam balls.
- As a protein substitute, they can be used in place of meat or fish.

[3 marks @ 1 mark each]

(ii) **WAYS OF TENDERIZING MEAT TO SOFTEN THE TEXTURE FOR USE**

- By hanging the meat
- By beating the meat with a meat hammer or rolling pin
- By smearing tomato or lemon juice on it before cooking
- By cooking with a pressure cooker
- By cooking with a salt-petre (kawu)
- By using commercial tenderizers, e.g. vinegar
- By cutting across the fibres to shorten them.

[3 marks @ 1 mark each]

(c) **RE-ARRANGING THE STEPS IN SEQUENTIAL ORDER**

- Place the fabric under the presser foot.
- Draw a straight line on the fabric to serve as a guide.
- Ensure that the needle is on the line.
- Bring the needle down.
- Start sewing straight.
- While sewing, make sure the needle is set on the straight line.

OR: IV, II, V, I, III, VI

[3 marks @ ½ mark each]

(d) **REASONS FOR CHOOSING THE CORRECT SEAM WHEN PLANNING TO MAKE A GARMENT**

- The type of seam can impact the functionality of the garment.
- The choice of seam affects the appearance of the garment.
- Different fabrics require specific seam types for optimal results.
- The seam allowance required for making the garment dictates the type of seam to be used
- Some seam types are easier to sew than others.

[2 marks @ 1 mark each]

[TOTAL = 15 MARKS]

QUESTION 3

(a) (i) **IDENTIFY THIS ACTION BEING PERFORMED**

Hemming

[1 mark]

(ii) **REASONS FOR HEMMING:**

- To secure the raw edge of the fabric, preventing it from unraveling.
- To provide a clean, professional look to garments and other sewn items.
- To shorten garments like pants, skirts, to the desired length.

[2 marks @ 1 mark each]

CamScanner

(b) **COMPLETING THE TABLE**

ACTION	TERM
(i) To work dough by pressing, folding, and stretching it.	*Knead*
(ii) To soak food in a seasoned liquid before cooking.	Marinate
(iii) To loosen browned food residue from a pan by adding liquid and scraping.	Deglaze
(iv) To add salt, pepper, herbs, or spices to food to enhance its flavor.	Season
(v) To allow yeast dough to rise before baking.	Proof
(vi) To heat sugar until it browns and develops a characteristic flavor.	Caramelize

[6 marks @ 1 mark each]

(c) **BENEFITS OF HAVING A CAREER PLAN AS A CAREER TECHNOLOGY STUDENT.**

- Focused skill development
- Strategic course selection
- Early networking opportunities
- Increased employability
- Motivation and direction
- Realistic expectations
- Adaptability to change
- Financial planning
- Time management
- Confidence building
- Identifying potential gaps

[3 marks @ 1 mark each]

(d) **WAYS GLOBAL COMPETITION AND TECHNOLOGY BRING CHANGES IN THE WORKPLACE**

- Automation
- Remote work and global teams
- E-commerce and digital marketplaces
- Data analytics and AI-driven decisions
- Cloud computing
- Faster communication and collaboration
- Cybersecurity threats
- Skills gap and reskilling
- Global supply chains
- Intellectual property protection
- Cultural sensitivity and diversity
- Sustainability and ethical practices

QUESTION 4

(a) (i) **REARRANGING OPERATIONS FOR MOLDING THE BLOCKS IN SEQUENTIAL ORDER**

- Measure and spread out the sand needed for the blocks
- Measure cement and add to the sand
- Mix the material uniformly
- Add small quantity of water to the materials
- Mix the material to get the wet mortar
- Position the mould box and oil the inside faces
- Fill the mould box with a quantity of mortar
- Tamp it to consolidate
- Add more mortar to fill and tamp
- Level the tamp, remove the mould box and get it ready for another block

OR: **VII, IV, I, VIII, II, X, IX, III, VI, V**

[5 marks @ ½ mark each]

(ii) **LISTING TOOLS NEEDED FOR MOULDING BLOCKS**

- Spade
- Mould box
- Tamping rod
- Headpan
- Level
- Straight edge
- Trowel

[1 marks @ ½ mark each]

CamScanner

(iii) **REASONS FOR USING SAND IN MORTAR MIX FOR MOULDING THE BLOCKS**

- It reduces shrinkage in mortar
- It prevents cracks in mortar
- It prevents mortar from sticking onto trowel or shovel
- It increases the volume of mortar

[1 mark @ ½ mark each]

(b) (i) **DESIGN BRIEF**

Design and make a unit that will support a toddler to walk without falling down.
OR: Design and make a unit that would help toddlers to walk

[1 mark]

(ii) **SPECIFICATION EACH ON ERGONOMICS AND COST**

Ergonomics-

- The unit will be used by a toddler
- The unit should be portable
- The unit should be used at home

Cost

- The unit should not be expensive
- The unit should be affordable
- The unit should not take long time to produce

[2 marks @ 1 mark each]

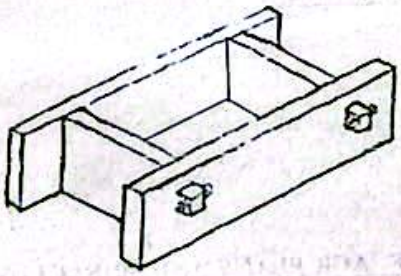

(iii) **POSSIBLE SOLUTION TO SOLVE THE PROBLEM**

[2 marks for resemblance]

(d) **MAKING FREEHAND SKETCH OF MOULD BOX**

[3 marks]

QUESTION 5

(a) (i) **REASONS WHY HE DEVELOPS THE PYRAMID BEFORE MAKING THE COAL–POT.**

- It helps to fabricate the coal – pot easily
- It helps him to save time in making the coal pot
- It saves soldering material.

[1 marks @ ½ mark each]

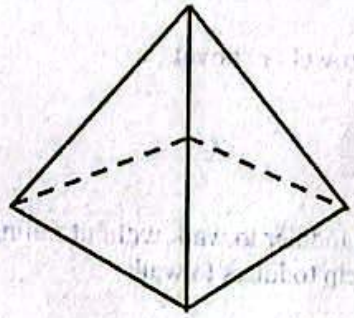

(ii) **LISTING FOUR TOOLS FOR MARKING – OUT THE PATTERN OF THE COAL –POT**

- Scriber
- Divider
- Sliding bevel
- Dot punch
- Try square

[1 mark @ for any 4 correct]

CamScanner

(iii) **DRAWING OF A SQUARE PYRAMID**

[2 marks]

(b) (i) **OPERATIONS IN THE SEQUENTIAL ORDER OF MAKING THE GRILL.**

1. Cut and shape the frame components.
2. Assemble the frame by welding or bolting pieces together.
3. Make grill grates by cutting and attaching metal bars.
4. Install a chimney and vents for airflow and heat control.
5. Attach handles for easy opening and closing.
6. Smooth surfaces, removing sharp edges.
7. Assemble wheels or shelves.
8. Clean the grill

OR: III, IV, V, VIII, I, II, VI, VII

[4 marks @ ½ mark each]

(ii) **CUTTING TOOLS FOR CUTTING THE PARTS OF THE GRILL:**

- Hacksaw
- Angle grinder
- Jigsaw
- Metal shears
- Circular saw
- Plasma cutter
- etc.

Academicprep.com
Learn • Practice • Excel

[1 mark @ for any 4 correct]

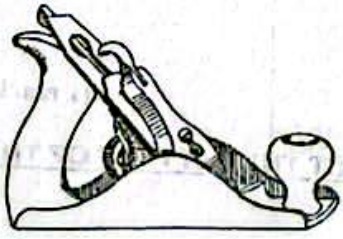

(iii) **MATERIALS FOR MAKING THE GRILL**

- Steel (mild steel or stainless steel)
- Cast iron
- Aluminum
- Stainless steel mesh
- Refractory cement
- etc.

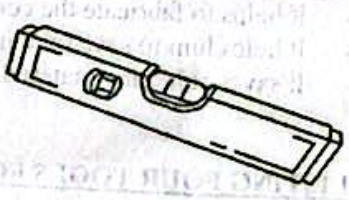

[1 mark @ for any 4 correct]

(c) **MAKING A FREE HAND SKETCH OF JACK PLANE AND SPIRIT LEVEL**

(i) Jack plane

(ii) Spirit level

[5 marks @ 2½ marks each]

[TOTAL = 15 MARKS]
