4. *Read the following passage carefully and answer* **all** *the questions which follow.*

Lauka was the only son of his parents, and they loved him so much that they would not allow anything bad to happen to him. They did beautiful and enviable things for him: they sent him to the best school in the district and provided whatever he needed to make life comfortable for him.

The previous summer, he, with alacrity, joined his parents on a historic excursion to a waterfall in the western part of the country. As expected, he prepared vigorously towards it. The car set off early in the morning of the fateful day, and everybody was super excited.

En route, Lauka's father realized that the fuel in the car would not suffice for a return trip if he should keep the air conditioner on. Hence, he decided to switch it off, and roll down the glass. This was to make ventilation possible in the car. Lauka, who was sitting near the window, decided to put his hand on it.

But unfortunately, his hand went too far, and it was hit by an on-coming vehicle, and got broken. He was immediately rushed to the nearby hospital, but the hand could not be cured completely in time. This made him miss school for an academic year. Hence, he did not merit promotion to the next class, he was made to repeat his class. Due to the repetition, he nearly stopped attending school, for he believed he was good enough to make it to the next class.

Eventually, Lauka repeated the class, but with the help of his parents, especially his father, who constantly monitored his school work by paying regular visits to the school and checking his homework, and buying all the learning materials that Lauka needed, he became second to none in the class. When the B.E.C.E results were out, he was the best in the district. Therefore, he was given a scholarship to study in any school of his choice. Though he and his family were so happy for the feat, he still kept in his heart what made him repeat his class. He then resolved in his heart never to do that again.

(a) State **two** things Lauka's parents did to demonstrate their love for him.

(b) Why did Lauka's father switch off the car's air conditioning?
