Mock Examination

CAREER AND TECHNOLOGY 2 & 1

1 hour 55 minutes

Write your **name, index number** *in* **ink** *in the spaces provided above.*

There shall be two papers, Paper **1** *and Paper* **2** *all of which must be taken. Papers* **1** *and* **2** *will be a composite paper taken at one sitting for* 2 hours, 5 minutes.

PAPER 1 (OBJECTIVE)
This will consists of forty (40) multiple choice questions to be answered in fifty (50) minutes for forty (40) marks

PAPER 2 (ESSAY)
This will consist of two parts (Part A and Part B) and will last for 1 hour 15 minutes.

Part A will comprise **three** (3) *questions. Candidates are expected to answer* ***two (2)*** *questions of which question 1 (test of practical) is compulsory, for 15 marks* ***each***

Part B *will comprise* ***three*** *(3) questions. Candidates are expected to answer* ***two (2)*** *questions of which question 4 (test of practical) is compulsory, for 15 marks* ***each***

Credit will be given for clarity of expression and orderly presentation of material.

PART 2
SECTION A
[15 marks]
Answer Question 4
[COMPULSORY]

4. Your school library needs a simple rack to keep books upright on the table. Design and make a resistant material artefact to solve this problem.

(a) State **three (3)** suitable material and **three (3)** suitable tools required to make the artefacts [3 marks

(b) State **three (3)** safety measures to observed when working on the artefact. [3 marks

(c) Re-arrange the operational sequence involved in making the artefacts.

(i) Apply finish to preserve the wood
(ii) Plans the edges to make them smooth and square
(iii) Assemble to form an inverted "T" or "L" shape
(iv) Measure and mark out the required dimension

CamScanner

(v) Use Sandpaper to smooth all surfaces
(vi) Cut out the parts accurately [6 marks]

(d) State;
(i) The tool for testing the squareness and flatness of the planed edges.
(ii) The purpose of applying the priming coat when applying the vanish
(iii) Two parts of the cutting tool used for cutting the inverted "T" shape [3 marks]

SECTION B

Choose only **one** questions from this section

(a) The table below gives workshop operations. For each, you are to give one suitable tool for marking - out and one for cutting. Copy and complete the table.

	Operation	One - marking - out tool	One - cutting tool
(i)	Setting out and building the first layer of a block wall		
(ii)	Producing a mortise and tenon joint on a piece of timber		
(iii)	Making a through hole in a 4 mm thick mild steel plate		

[6 marks]

(b) What is meant by the following terms when we talk about resistant materials?
(i) Thermoplastic
(ii) Thermosetting plastics [2 marks]

(c) (i) Draw a pictorial view of a firmer chisel. [5 marks]
(ii) On your drawing, show and name any **two** parts. [2 marks]

CamScanner

6. (a) Copy and complete the table below;

	Material	One property	One use
(i)	Aluminium		
(ii)	Odum		
(iii)	P. V. C		

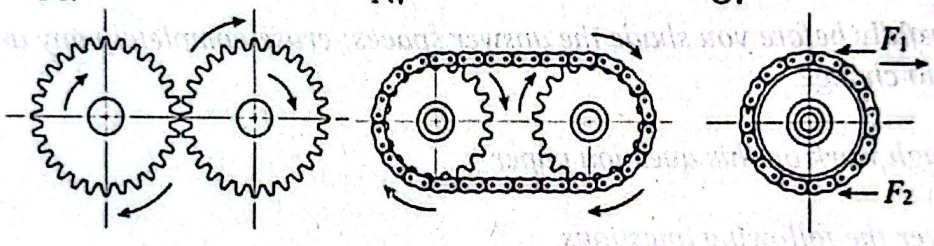

[5 marks]

(b) State **three (3)** causes of accident at the workshop. [3 marks]

(c) (i) Define **mechanisms** [2 marks]

(ii) The following are graphical representations of types of mechanisms. Identify the types labelled **M**, **N**, and **O**. [3 marks]

M: **N:** **O:**

(iii) Give **one** machine each that uses the types labelled M, N and O [2 marks]

CamScanner

Answer all the questions

PAPER 1 (OBJECTIVE)

This will consists of forty (40) multiple choice questions to be answered in fifty (50) minutes for forty (40) marks

Each question is followed by **four** *options lettered A to D. Find the correct option for* **each** *question and shade* **in pencil** *on your answer sheet the answer space which bears the same letter as the option you have chosen. Give only* **one** *answer to* **each** *question. An examples is given below:*

Tools are oiled after use to
A. ensure they remain accurate
B. prevent them from rusting
C. preserve the cutting edges
D. maintain their attractiveness

The correct answer is prevent them from rusting *which is lettered B and therefore answer spaces B would be shaded.* [A] [B] [C] [D]

Think carefully before you shade the answer spaces; erase completely any any answers you wish to change.

Do all rough work on this question paper

Now answer the following questions

1. People consume food to meet different body needs. Which of the following is **NOT** considered as nutritional reason for eating food?
   A. To quench hunger
   B. For growth and development of the body
   C. To enlarge the size of our clothes

D. being attentive to safety rules when using tools

22. A woodworker is producing a local kitchen stool from mahogany. Which tool is suitable for cutting along the grains to obtain the seat?
A. Hacksaw
B. Cross - cut saw
C. Tenon saw
D. Rip saw

23. Brass is a resistant material that can be classified as a/an
A. non - ferrous alloy
B. carbon steel
C. ferrous metal
D. non- ferrous metal

24. To set-out walls at right - angles to each other, a block worker needs to use
A. line and pin
B. spirit level

CamScanner

C. sliding level
D. builder's square

25. A suitable finish for bathroom doors is
A. contact glue
B. emulsion paint
C. oil paint
D. lacquer

26. As a designer follows the process of design, the second stage to consider is
A. analysis
B. brief
C. situation
D. research

27. Ato is required to draw a table using a three - dimensional technique. Which of the drawing is not applicable?
A. Orthographic
B. Isometric
C. Perspective drawing
D. Oblique

28. Craftsmen at construction site protect their heads from falling objects with
A. masks
B. goggles
C. helmet
D. scarf

29. Which of the following is used for making surgical tools?
A. Steel
B. Aluminium
C. Copper
D. Titanium

30. The condition needed to ensure safety of food from production to consumption is
A. food preservation
B. food storage
C. food hygiene
D. cooking food

31. ..... is worn on finger to protect it from needle prick when sewing
A. Body harness
B. Thimble
C. Earmuff
D. Gloves

32. All the following are causes of poor sanitation **except**
A. littering around
B. discriminate defecation
C. improper disposal of waste
D. choked gutters

33. The appropriate tool for cutting and shaping wood among the option below is
A. hacksaw
B. cold chisel
C. bolster
D. jack plane

34. Which of the following mordern material is used in vehicles to absorb shock in case of accident?
A. Metal foam
B. Neoprene
C. Titanium
D. Grapheme

35. Which of the following plastics is used for making bullet proof vest?
A. Nylon
B. Polythene
C. Kevlar
D. Acrylic

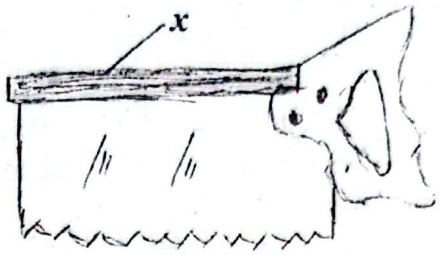

36. All the following are rich in iron food **except**
A. Beans
B. Brocolli
C. Mushroom
D. Potatoes

CamScanner

37. The type of punch ground to an angle of 45° is
    A. centre punch
    B. dot punch
    C. scriber punch
    D. bent punch

38. The tool used for making parallel lines to the edge of work piece is
    A. outside calliper
    B. inside calliper
    C. odd leg calliper
    D. steel rule

39. In making wooden table all the following tools are used for shaping and cutting **except**
    A. saw
    B. plane
    C. mortise chisel
    D. flat chisel

40. 

The part labelled *x* serves the purpose of
    A. hardening the blade
    B. beautifying the blade
    C. stiffening the blade
    D. straightening the blade
